

# Archetype

A general science journal published by the Science Group of the Anthroposophical Society in Great Britain.

## Contents of back issues:

- No. 1 (Sep. 1995):** A hypothesis-free science of inorganic nature, *Georg Maier*; Mathematics as a spiritual science, *Renatus Ziegler*; An overview of Goethe's geological writings, *Christine Ballivet*; What will mankind bring about by trying to gain control of heredity? - The fundamentals of a world outlook based on DNA, *Jaap van der Wal*; 60 pp.
- No. 2 (Sep. 1996):** Rethinking physics, *Nick Thomas*; Radioactivity in the history of the Earth, *Norman Grant*; Steiner's description of the Earth's history, *Norman Grant*; 39 pp.
- No. 3 (Sep. 1997):** Basic gestures of human embryological development, *Wolfgang Schad*; On the lemniscatory motion of sun and earth, *Louis Locher-Ernst*; Thermal expansion in counterspace, *P.P. Veugelers*; Mathematics and Occultism, *Rudolf Steiner*; The polar relation between the human skull bones and limb bones, *Gordon Woolard*; Letter re: article by N. Grant in issue No. 2, *Henry Goulden*. 60 pp.
- No. 4 (Sep. 1998):** Elements of a differential and integral calculus in counterspace, *P. P. Veugelers*; Progress towards complementarity in genetics, *Johannes Wirz*; Between discordant eras, *Stephen L. Talbott*; Correspondence, *Ron Jarman*, *Norman Grant*; 56 pp.
- No. 5 (Sep. 1999):** The projective lemniscate, *Lou de Boer*; The fruitfulness of Goethe's approach to science at the present time, *Jochen Bockemühl*; Participation, cooperation and adaptive mutations: complementing ecological and evolutionary paradigms, *Johannes Wirz*; Foreword to 'The Natural Scientific Writings of Goethe' (edited by R. Steiner), *Karl Julius Schröer*; Karl Julius Schröer (1825 – 1900), teacher of Rudolf Steiner – A biographical Sketch, *David Wood*; Towards a history and sociology of the anthroposophical research institutes in the 1920s, *Christoph Podak*. 60 pp.
- No. 6 (Sep. 2000):** Geometric Crystal Morphology on a Projective Basis – Towards the Complementarity of Morphology and Structure Theory, *Renatus Ziegler* (45 pp); Review Article: Capillary Dynamolysis, *David Heaf*. Issue size 56 pp.
- No. 7 (Sep. 2001)** The fourth dimension, *Rudolf Steiner* (Berlin, 24.3.05). Large-scale reservoir projects – Examples of Faustian work, *Eduard Naudascher*. Lilly Kolisko – Life and Work 1889-1976, *Gisbert Husemann*. Issue size: 48 pp.
- No. 8 (Sep. 2002)** What is Goetheanism? *Wolfgang Schad* (32 pp). Some thoughts on the oxalic acid/formic acid processes, *Judyth Sassoon*. Issue size: 48 pp.
- No. 9 (Sep 2003)** Shape changes of ripening mistletoe berries, *Heidi Flückiger and Stephan Baumgartner*. Bovine spongiform encephalopathy and uric acid, *Judyth Sassoon*. Microbial processes and plant life – a key to a chemistry of life, *Norbert Pfennig & Jochen Bockemühl*. 43 pp.
- No. 10 (Sep. 2004)** Mistletoe berry shapes and the zodiac, *Stephan Baumgartner, Heidi Flückiger and Hartmut Ramm*. Experiments at Moon-Saturn conjunctions using the capillary dynamolysis method of Lilly Kolisko, *Dirk Rohde*. 32 pp.
- No. 11 (Sep. 2005)** Moving pictures: the world of meaning of two meadow butterflies, *Daniel Kuster and Johannes Wirz*. The marbled white butterfly (*Melanargia galathea*) in ecologically different farmland habitats, *Johannes Wirz and Daniel Kuster*. The fortnightly tree bud rhythms of Lawrence Edwards, *Nick Kollerstrom*. 52 pp.
- No. 12 (Sep. 2006)** The buttercup family through the course of the year – interrelationships between plant phenology and basic questions in evolution, *Jürgen Momsen*; The conifer type – steps in the development of an imaginative understanding of trees, *Jan Albert Rispens*; The conifer cone, *Jan Albert Rispens*. 60 pp.
- No. 13 (Sep. 2007)** Integrity as identity, *Sylvie Pouteau*. The 'I' and the reality of the atom, *Peter Gschwind*. Goetheanism – its methods and significance in the science of the living, *Ernst-Michael Kranich*. 48 pp
- No. 14 (Nov. 2008)** Networks, not building blocks – the idea of the organism in genetics and epigenetics, *Johannes Wirz*. Meadows as a picture of their environment, *Werner Schneider*. Goetheanism – false dichotomy *Peer Schilperoord*. 52 pp.
- No. 15 (November 2009)** Evolutionary biology today – a contribution to the Darwin Year 2009: 150 years since the publication of *On the Origin of Species*, *Wolfgang Schad*. An outline for a biology of freedom using songbirds as an example – concerning the differentiation of the territorial song, *Walther Streffer*. 56 pp.
